PROFILE

Experienced and results-driven **Senior Full-Stack Engineer** with a proven track record in leading high-performing teams and delivering successful projects.

Since 2019, I have been working at several companies, building many frontends and useful tools to include more complex web

applications. Adept at overseeing full stack and blockchain development initiatives, implementing robust ERP solutions, and managing end-to-end project lifecycles.

I pride myself on being detail-oriented, analytical, and driven. I'm always looking for new skills and my curious nature leads me to learn something new every day
